

Once a week AliExpress sends us a report with the list of orders that they consider fraudulent. If you want to send an appellation please provide us the following information:

- 1) **Pub ID** (you can find it in your account: <http://prntscr.com/ktz2fn>)
- 2) **Promotion type (search engine, incentivized promotion, etc.)** - Just comment what traffic type you publisher uses to attract users (it should be permitted in the program ☺)
- 3) **Landing page URL** (this can be a homepage, product detail page, etc.) - Provide a link
- 4) **URLs of the pages where you have shared AliExpress affiliate link(s)** - Please provide links where the promotion of AliExpress products has been placed (maximum three)
- 5) **Screenshots of the pages mentioned in 4** - Please use Lightshot or any other program that allows sharing pictures via links!
- 6) Possible reasons why your promotions were detected by AliExpress antispam system - If you don't know the reasons, please put something like "I don't know", don't leave this item blank.

Please note that in spite of the appellation, AliExpress can deduct the commission for the orders listed in the report.
